

# The Security Cooperation Information Portal -

**"SCIP" into the future**

# ***Security Cooperation Information Portal (SCIP) – Background***

- Security Cooperation Legacy System Information
  - Currently available to International Customers & DoD Users, but.....
    - ✓ Difficult to Access – Multiple Passwords
    - ✓ Different MILDEP Query & Report Designs
    - ✓ Limited Data Availability
    - ✓ No “Tri-Service” View – Deficiency # 1
    - ✓ No DSAMS Data Visibility (by Design) – Needed to easily determine LOR status

**CISIL**

**SAMIS**

**CMCS**

**MISIL**

**DSAMS**

**DIFS**

**Other DoD Sites**

**SWA**

**SWA**

**MATW**

**Oracle Database**

**MIST**

**Information Warehouse**

**Legacy Systems Interface Info**

**Navy E-business**

**M204**

**Internet Browser**

**End User**

**Typical User Access Paths – the Current Environment**

# SCIP – Objectives

- Solution – Build a “Portal”
  - Assemble corporate information from seemingly incompatible enterprise legacy systems/databases, and provide that consolidated information to the International Customer and DoD User in a common format
    - Promote “One Stop Shopping”
    - Provide Secure Internet & NIPRNET Delivery
    - Make it easy to Use & Customizable
    - Take Advantage of COTS Products

Provide a short-term solution for International & DoD Customer information needs, prior to the development & deployment of CEMIS

# ***Portal Benefits***

- **Portal is *not* a website** where info is posted and must be continuously updated
- **Portal is new technology** that allows powerful search engines to pull in *current* data from a variety of sources & display that info in a consolidated way
- Portal will allow users to do queries and reports, requisitions, SDRs, LOA data, freight tracking, etc.
- *First* “Tri-Service” consolidated view of Legacy Data
- *First* International Customer view of DSAMS Data

# ***Portal Benefits (Cont.)***

- **Supports Business Process Reengineering (BPR)**
  - Data can be quickly remapped to fit new processes
- **Potential savings across community**
  - Manpower: Customer self-serve data retrieval vice request to ILCO
  - Time: Self-serve data retrieval vice request and wait
- **Design is re-usable in future CEMIS environment**
  - Consistent user interface
  - May reduce report/query development costs

# **SCIP – Development & Deployment**

## **Spiral Development & Releases**

Aug 02

Oct 02

Dec 02

Feb 03

Apr 03

### **Release 1**

- Case Profile Report
- Case Status & Closure Report
- Case/Line Level Query
- Case Line Level Query
- Requisition Level Query
- SDR Query
- Case Ad Hoc
- Case Line Ad Hoc
- Requisition Ad Hoc
- SDR Ad Hoc
- Web Site Links
- Glossary/Help Screens

**Pre-Phase 1 Release**

### **Release 2**

- Requisition Input
  - Standard
  - Non-Standard
- SDR Input
- Follow-ups
- Cancellation Req.
- Modification Req.
- Follow-up/Reinstatement
- Enhanced Links

### **Release 3**

- Batch Upload Process
- Requisition Group Summary Report
- Enhanced Reports
- Enhanced Error Checking & Validation
- Enhanced Links

### **Release 4**

- Enhanced Reports
  - Case History
- Enhanced SDR Input (attachments)
- Full Freight Tracking Capability for FF's and Customers
- Payment Schedule Query
  - Payment Schedule Ad Hoc
- Enhanced Links

**Postponed**

- USERID

First Initial – Last Name

# SCIP – Security

## Summary - *Key Security Aspects*

- Perhaps the first system to use 1) USERID/Password, 2) CAC, 3) SECURID and 4) the Federal Bridge (TBD)
  - Authentication method tailored to nature of User
- Deals with Known and Unknown Customers
  - Leaves Token Distribution to Country
  - Their data is at risk in the event of identity compromise
  - No vetting of Customer personnel or “Need to know” determination by DoD
- Uses SecurID for Foreign Customer Token
  - No requirement for card readers and special PKI software on customer’s PCs
- Located in NIPRNET DMZ (.US Domain)
  - Customers do NOT traverse NIPRNET
- Application Programs enforce Compartmentalization
- Uses Replicated Data
  - No customer access to DoD’s system of record

## *SCIP – Benefits*

### *Business Benefits*

- Supports Business Process Reengineering (BPR) Initiatives
  - Data can be quickly remapped to fit new processes
- Potential **\$\$\$** savings across the SC community
  - Material: STARR/PC customers and freight forwarders may be able to avoid multiple \$10K ILCS connection fees
  - Manpower: Customer “self-serve” data retrieval vs. request to ILCO country/program team members
  - Time: Self-serve data retrieval vs. “request and wait”
- Design may be re-usable in future CEMIS environment
  - Consistent user interface
  - May reduce report/query development costs

## SCIP – Benefits

### *Customer Benefits*

- The Portal:
  - provides needed functionality, including:
    - ✓ a consolidated “Tri-Service” view
    - ✓ a view of DSAMS data
  - is readily accessible via the Internet
  - provides a secure avenue for information exchange & data assurance
  - provides a short term information solution pending CEMIS development
  - Provides Singular Access

**CISIL**

**SAMIS**

**CMCS**

## Security Cooperation Information Portal (SCIP)

### U.S. Government Computer Use

This is a Department of Defense Computer System. This computer system, including all related equipment, networks, and network devices (specifically including Internet access) are provided only for authorized U.S. Government use. DoD computer systems may be monitored for all lawful purposes, including to ensure that their use is authorized, for management of the system, to facilitate protection against unauthorized access, and to verify security procedures, survivability, and operational security. Monitoring includes active attacks by authorized DoD entities to test or verify the security of this system. During monitoring, information may be examined, recorded, copied and used for authorized purposes. All information, including personal information, placed or sent over this system may be monitored.

Use of this DoD computer system, authorized or unauthorized, constitutes consent to monitoring of this system. Unauthorized use may subject you to criminal prosecution. Evidence of unauthorized use collected during monitoring may be used for administrative, criminal, or other adverse action. Use of this system constitutes consent to monitoring for these purposes.

# ***Portal – How do I get connected?***

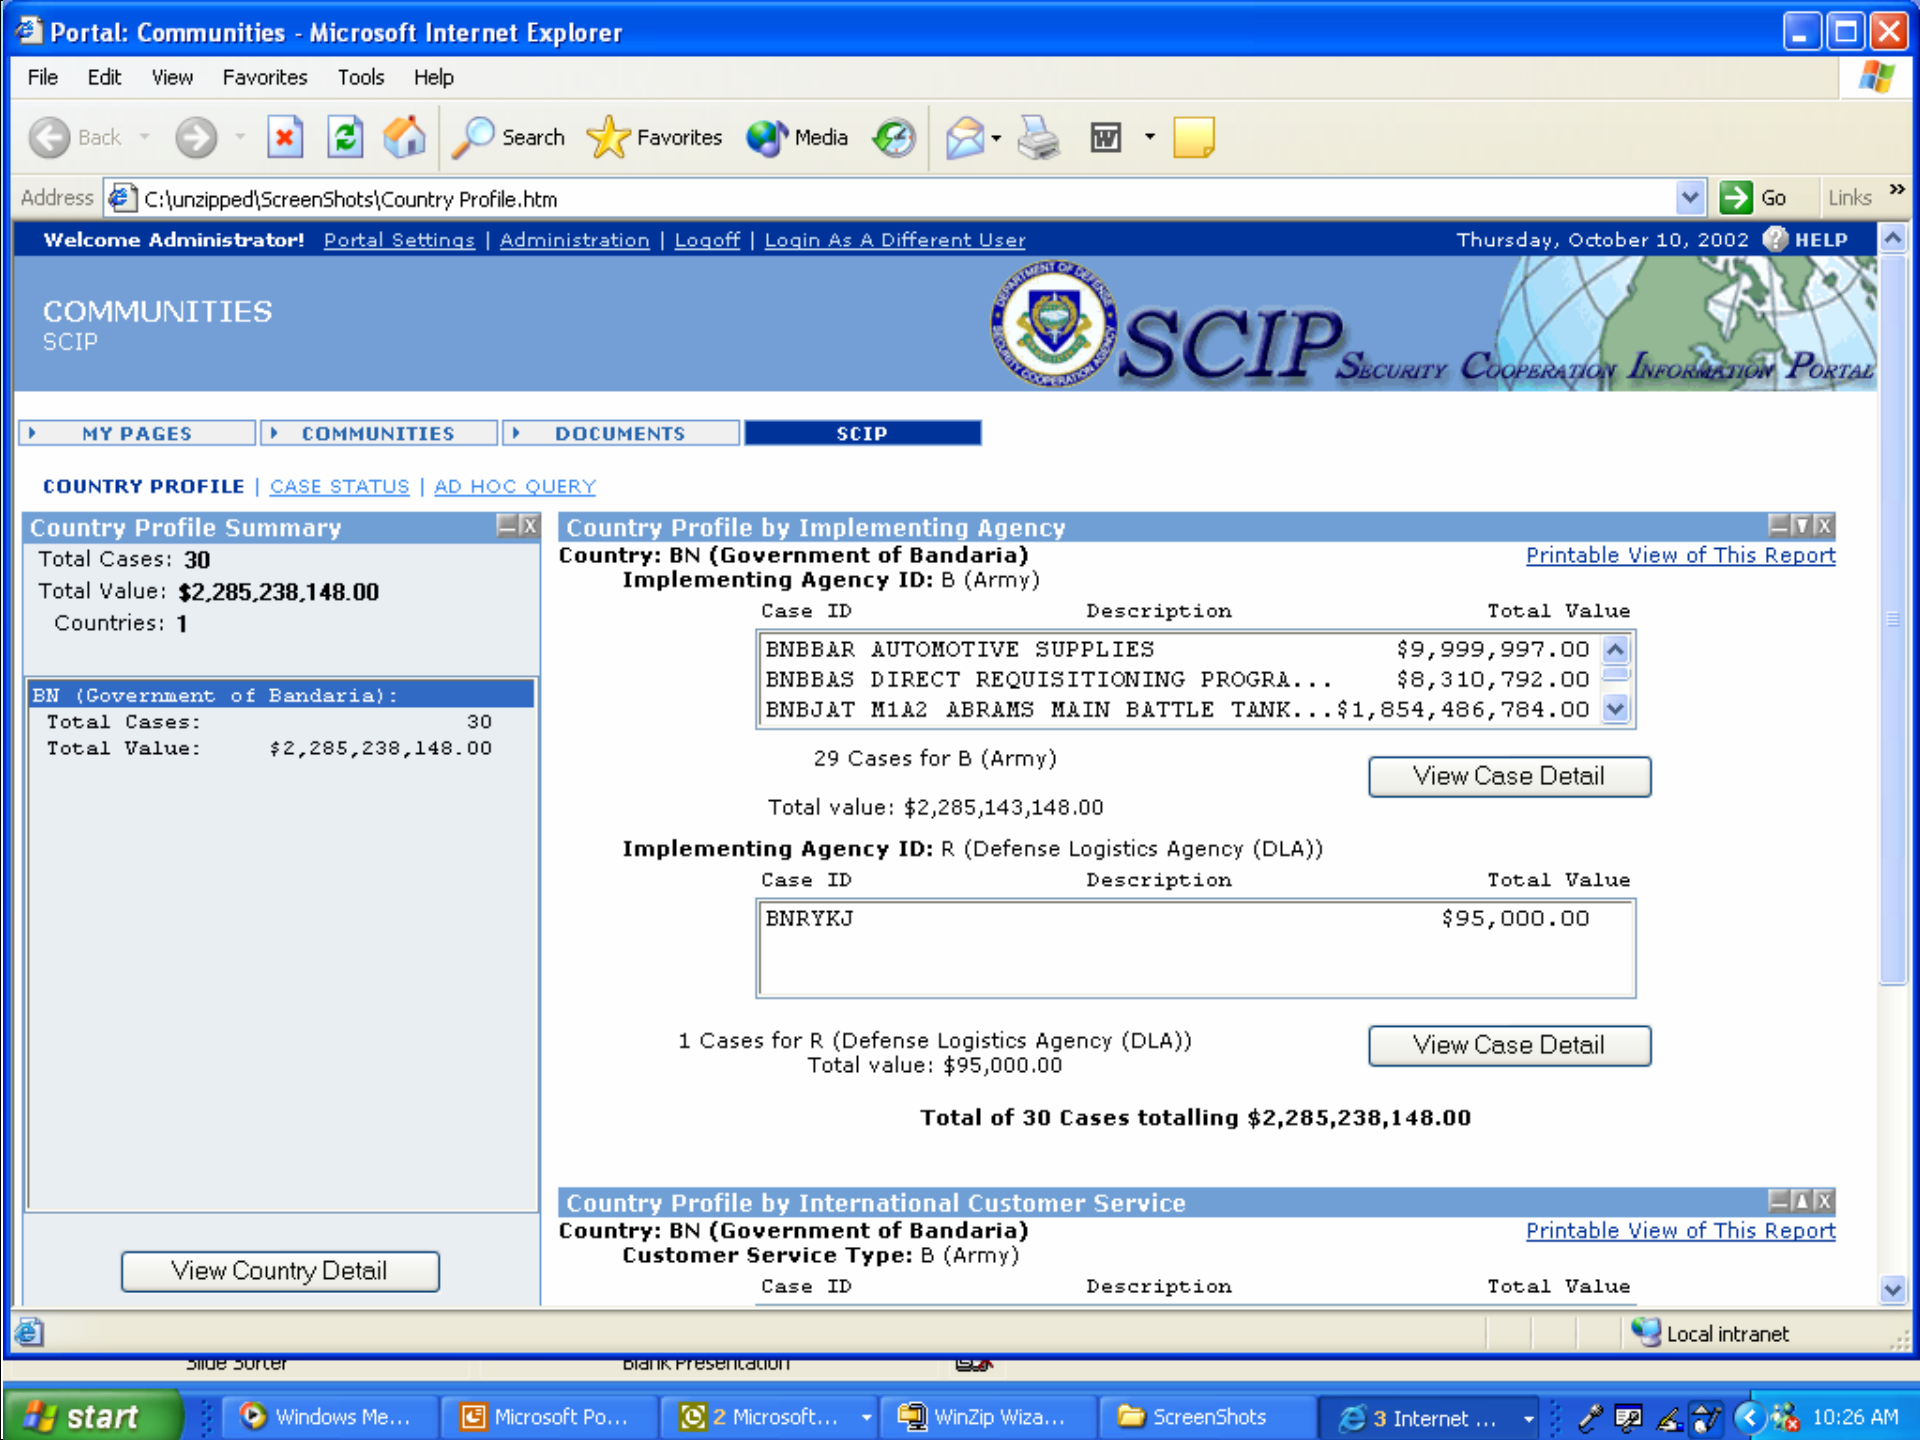

- **DSCA**
  - Will initiate a Portal publicity campaign
  - Will provide Registration Request forms electronically to perspective users
  - Will establish User Access records and provide Secure ID tokens, where required
- **Portal Users/Customers**
  - Will “authenticate” users prior to DSCA establishing Customer portal accounts

# The Security Cooperation Information Portal -

**"SCIP" into the future**
